

EZ-1745

17.5-45mm 1:3.5-5.6

Details Specifications

- Equivalent to 35-90mm wide angle standard zoom on a 35mm Film Camera
- Closest focal distance of 0.28m at any zoom position
- Standard zoom of E-500 SE Kit

The ZUIKO DIGITAL 17.5-45mm 1:3.5-5.6 (35mm equivalent focal length: 35-90mm) provides full 2.5x zoom performance. It is extrem compact and lightweight standard zoom lens with a range of use from medium wide angle to classical telephoto portrait. Extraordinary is the close focusing distance at any zoom position for close up images.

This lens comes only as a part of the Olympus E-500 SE Kit.
